Hi Carol,

Please ensure that Utility servicing issues are imbedded into all Growth Strategy plans. They should include: availability, capacity, corridor selection, environmental impact, system expansion planning requirements, etc.

Thanks

Corey

As a follow up to the last intergovernmental meeting for the Comox Valley Regional Growth Strategy, please find relevant backup information. The RGS team would ask that you please review the policy directions and provide comments back as soon as possible.

Because of the size of the files I will send them under two separate emails.

Thank you.
