

Water Main Flushing Notice

Flushing of the water mains in your area will occur between:

May 6 – May 17, 2024

**Between the hours of:
8:00am and 4:30pm**

Resident of Royston,

Flushing of the water mains is routine maintenance and greatly improves the water quality in the distribution system. While work is being carried out the water may become temporarily discoloured, and residents may experience a loss in pressure.

Where practical, residents should avoid washing laundry during this time and ensure that any electric hot water tanks are switched off.

We ask that motorists please exercise caution when driving past our crews.

If you have any questions or concerns, please call the Engineering Services Branch at 250-334-6056 or email engineeringervices@comoxvalleyrd.ca.
