Waste Management

**Combat bad bugs
and encourage good
bugs without the use
of pesticides.**

**At the Comox Valley Compost Education Centre
July 24th at 10 am - Good Bugs versus Bad Bugs.**

Tyler Johns, a local bug guru, presents an informative talk on **good bugs versus bad bugs**. Learn how to combat bad bugs and encourage good bugs without the use of pesticides as part of the Nature Work's public education program.

Master Gardeners on site from 9:00 am – 1:00 pm. Plant and disease identification day! Please bring ALL specimens in sealed zip lock bags.

“**Nature Works**” is an education and awareness program developed by the Comox Valley Regional District (CVRD) that encourages the use of pesticide alternatives for people in municipalities with pesticide bylaws, and other people in areas who simply want to know more about creating pesticide-free lawns and gardens.

To request the set up of the Nature Works display or a presentation at a community event or place of business call **Patty Rose**, CVRD contract educator at **250-898-1086**.
