## Regional Parks and Trails Strategic Plan Now Underway

The Comox Valley Regional District (CVRD) has begun a Regional Parks and Trails Strategic Plan process to guide the future of regional parks and trails over the next 20 years and beyond. The Strategic Plan will help guide service delivery to protect regionally significant areas, develop a network of regional trails, and complement the existing community and provincial parks networks as the region grows.

The CVRD is engaging with K'ómoks First Nation and later this fall will begin meeting with member municipalities and local interest groups to gather and analyze initial information for the planning process. A broad public process is planned to begin early 2024 to discuss emerging directions and identify priorities for future regional parks and trails.
