Water Rates Increasing In Electoral Areas

Join the Comox Valley Regional District (CVRD) Electoral Area Directors and staff to learn about how and why ageing infrastructure is driving an increase in rates within several local water services areas.

A significant portion of the water system is made up of infrastructure that is approaching the end of its service life and will require replacement in the coming years.

The CVRD has completed detailed analysis to develop a replacement schedule and funding model which shows that increased water rates are required in order to ensure system reliability.

Impacted residents will be receiving letters in their mailboxes with detailed information and invitations to community information sessions happening later this month. Visit: www.comoxvalleyrd.ca/waterrates

Upcoming Meetings

No scheduled meetings this week.
