

CVRD Update

Weekly News & Information

December 6, 2023 Edition

Be Prepared This Winter

As winter storms approach, make sure you are prepared for the unexpected. Winter weather conditions can quickly become dangerous with little to no warning.

Environment and Climate Change Canada issue weather alerts to notify the public. Understanding these alerts will help you get prepared.

- **Warning:** Urgent message that severe weather is occurring or will occur.
- **Watch:** Alerts about weather conditions where potential or significant storm may occur. A Watch may upgrade to a Warning.
- **Advisory:** Issued for specific events that are less severe but could impact you.
- **Special Weather Statement:** Less urgent alert to advise of unusual conditions.
