Climate Action Strategy Supports More Resilient Comox Valley

The Comox Valley Regional District's (CVRD) Climate Action Strategy was approved by the CVRD Board in January, and is aimed at improving daily life and protecting the places Comox Valley residents value most.

The regional strategy guides CVRD policies and actions on climate, focusing on mitigation, adaptation, collaborative opportunities and resilience building.

The strategy includes 70 actions that will help reduce greenhouse gas emissions and protect our essential services while keeping parks, roads and our community spaces resilient as weather patterns change.

To read the regional strategy and learn more about plans, visit: comoxvalleyrd.ca/climatestrategy
