

# Royston Seaside Trail/Viewing Platform

## Project Background

The Marine Drive section of the Royston Seaside Trail with the picnic tables and the viewing platform area have been park amenities in the community for decades. The viewing platform has been closed since November 2023 due to significant structural issues and advanced decay.

## Where Are We Now?

To help inform park planning for the Marine Drive area, the CVRD would like to understand:

- What is important to you in this area?
- How do you use this space?
- What values are important to you about this site? For example: views, cultural heritage, connections/walking paths, social gathering, etc.

## Next Steps:

The CVRD will collect feedback heard to help define an appropriate site planning process in collaboration with K'ómoks First Nation. More information will be communicated as the project progresses.
