UPDATED DRAFT TRAIL NETWORK

The draft-updated map includes a few more recently constructed trails that were not on the old Mount Geoffrey trail map. However, in order to stay within existing trail maintenance and repair budgets (see trail network poster), user created trails that do not meet environmental, safety and connectivity criteria were purposely not mapped. This was done in order to discourage use of those trails and allow for their possible future closure.

- 1. Do you have comments or additional suggestions for the trail map?
- Are there other trails that should be mapped & become part of the formal trail network? Please explain.

Are there any trails that should not be mapped? Please explain. 3.
