The CVRD outdoor irrigation rebate program will help residents use water more efficiently. Commercial and residential property owners connected to the Comox Valley water system are eligible for a \$300 rebate on the purchase of a qualifying smart irrigation controller.

These controllers adjust the watering schedule according to the weather, reducing water use.

Property owners in the City of Courtenay, Town of Comox and the Arden, Comox Valley, England Road, Marsden/Camco, and Greaves Crescent water local service areas are eligible for these rebates.

For further details on eligibility requirements, qualifying hardware and frequently asked questions about the program visit www.comoxvalleyrd.ca/smartcontrol.
