

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service

SURVEY RESPONSE REPORT

27 July 2020 - 14 September 2020

PROJECT NAME:

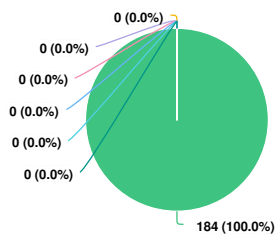

Rural Roadside Garbage and Recycling Collection

FILTER BY:

Answered : C3—Dove-Creek-Area

SURVEY QUESTIONS

Q1 By number, please tell us what part of Electoral Area C you live in:

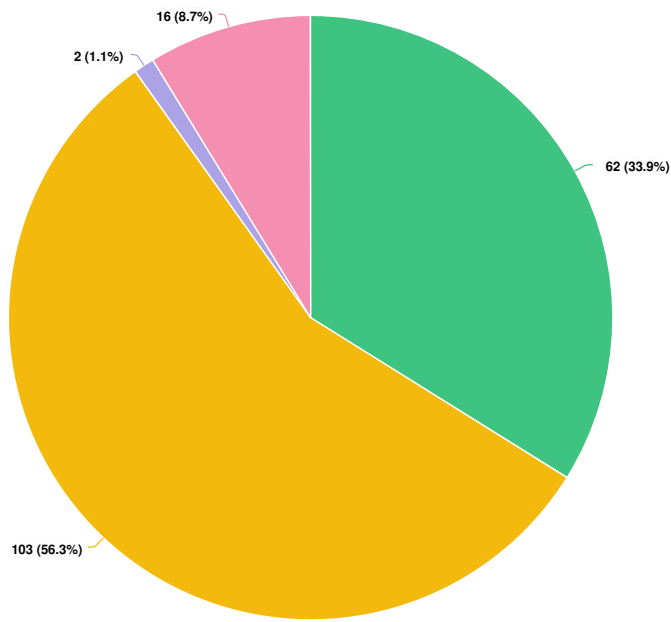

Question options

- C3 - Dove Creek Area
- C1 - Lake Trail Road Area
- C2 - Forbidden Plateau Road Area
- C4 - Merville and Williams Beach Area
- C5 - Black Creek Area
- C6 - Saratoga and Miracle Beach Area
- C7 - MacAulay Road Area

Mandatory Question (184 response(s))

Q2 What do you currently do with your household garbage the majority of the time?

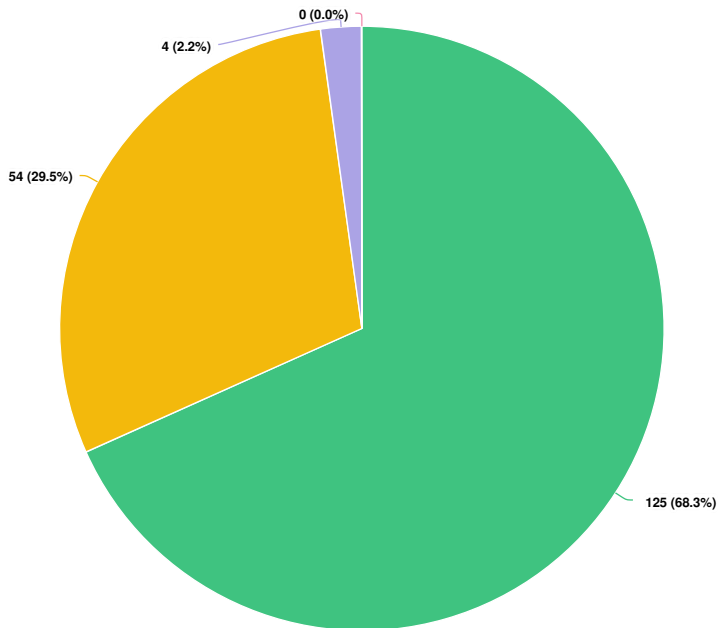

Question options

- Take it to the landfill yourself
- Subscribe to a private roadside pick-up service
- Use a community collection spot (ie: large bins at a strata)
- Other (please specify)

Optional question (183 response(s), 1 skipped)

Q3 How dedicated are you to recycling?

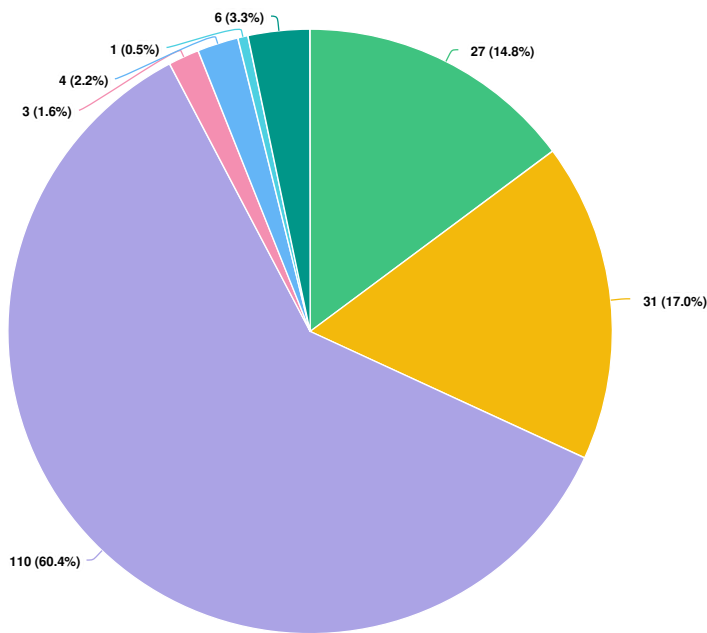

Question options

- Very – Aiming for zero waste, willing to make multiple stops/trips to properly divert
- Somewhat – Recycle obvious or easy choices but let others go to landfill
- Not very – Limited diversion of recyclables
- Not at all – This is not something I am committed to

Optional question (183 response(s), 1 skipped)

Q4 If you are recycling, what facility do you use the most?

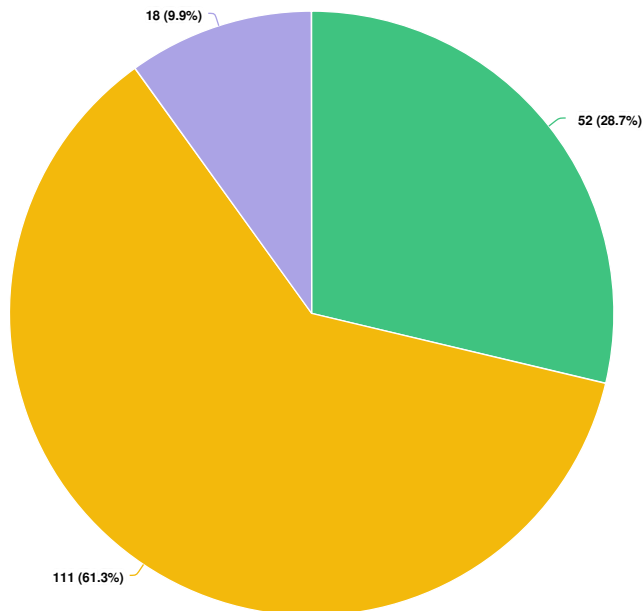

Question options

- Landfill
- Unstaffed Community Depots (ie: Old Fire Hall in Black Creek or Canex)
- Return-It Depots in Courtenay or Comox
- Take to alternate location (ie: workplace)
- Subscribe to a private collection company
- N/A
- Other (please specify)

Optional question (182 response(s), 2 skipped)

Q5 What do you currently do with most of your food waste?

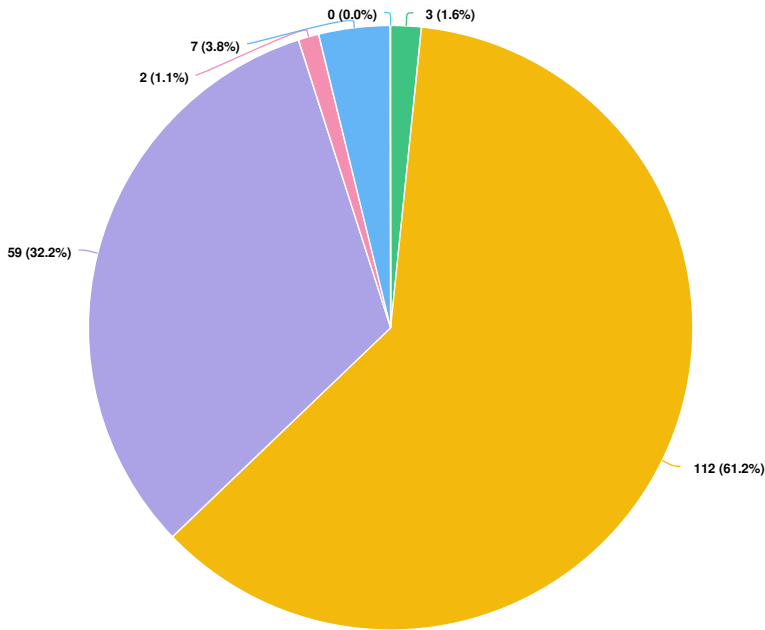

Question options

- Dispose with household garbage
- Personal compost
- Other (ie: animal feed) (please specify)

Optional question (181 response(s), 3 skipped)

Q6 What do you do with most of your yard waste?

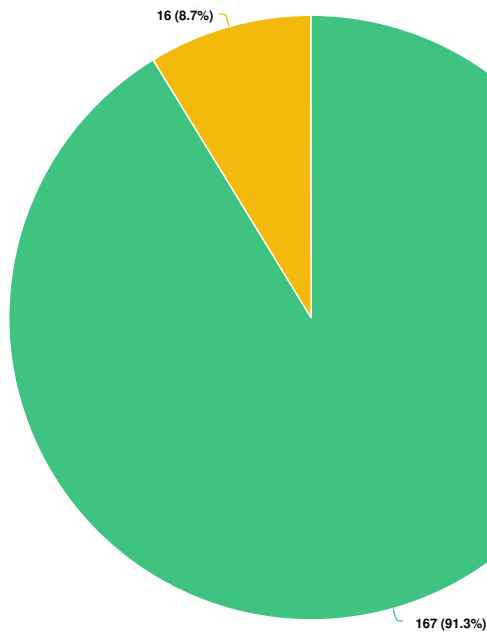

Question options

- Landfill
- Personal compost
- Burn when allowable
- N/A
- Other (please specify)
- Drive to a private facility

Optional question (183 response(s), 1 skipped)

Q7 Do you currently operate a business from your home?

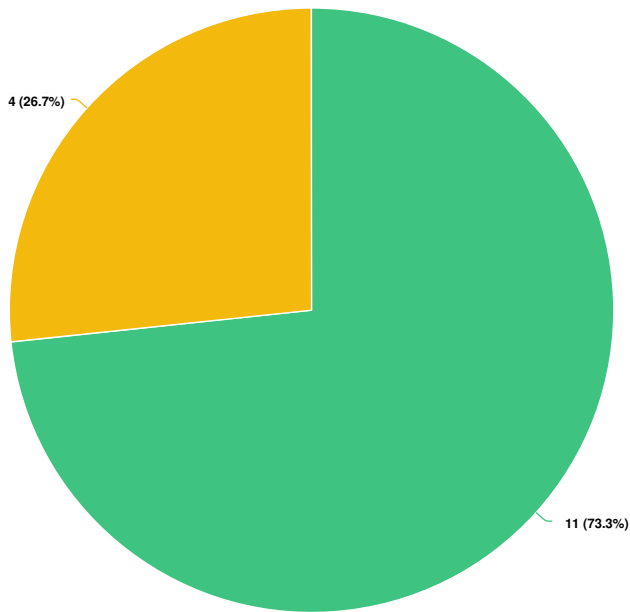

Question options

- No
- Yes

Optional question (183 response(s), 1 skipped)

Q8 Do you currently dispose of your household waste with your business waste?

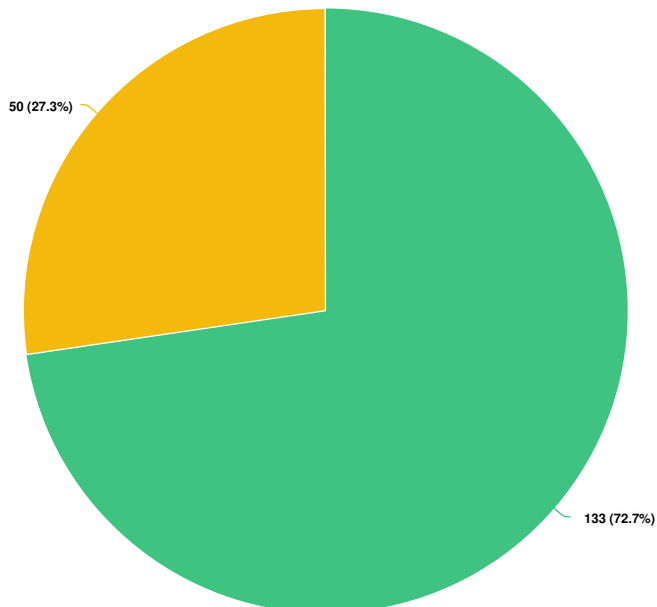

Question options

- Yes
- No

Optional question (15 response(s), 169 skipped)

Q9 In other rural areas on Vancouver Island, public service roadside collections costs between \$150-\$250/year per household. Based on this cost range, are you interested in further consideration of a roadside garbage/recycling collection service?

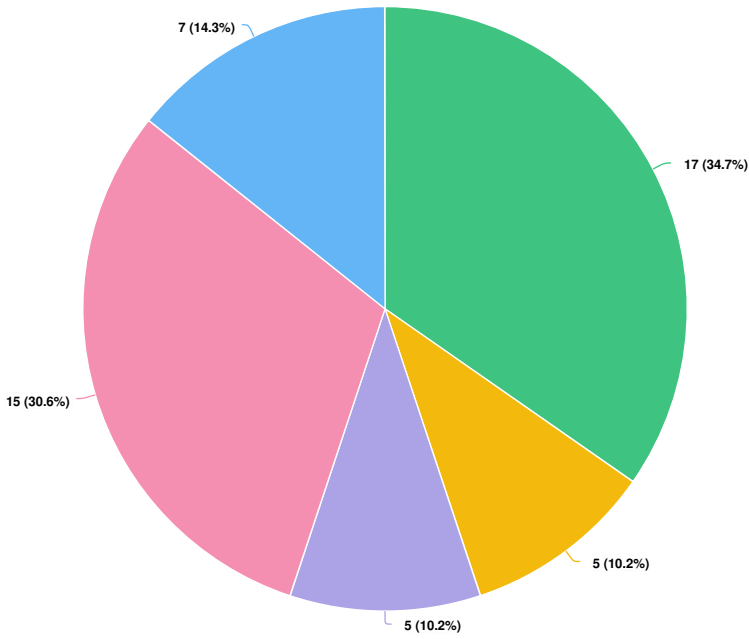

Question options

- Yes
- No

Optional question (183 response(s), 1 skipped)

Q10 Let us know the main reason this service isn't of interest right now:

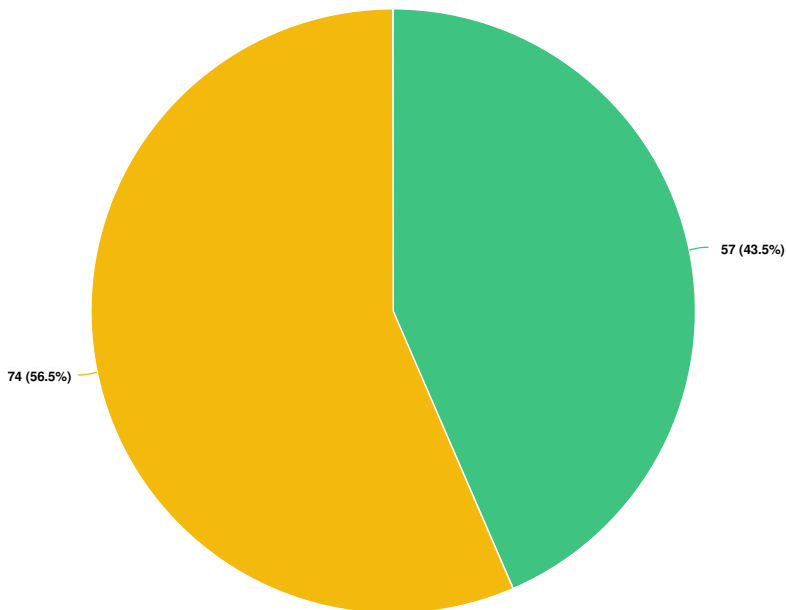

Question options

- Happy with current method of management
- Cost is too high – would consider if cheaper
- Opposed to any new additional costs
- Won't use it enough to make it cost effective
- Other (please specify)

Optional question (49 response(s), 135 skipped)

Q11 Would you like to see garbage pick up:

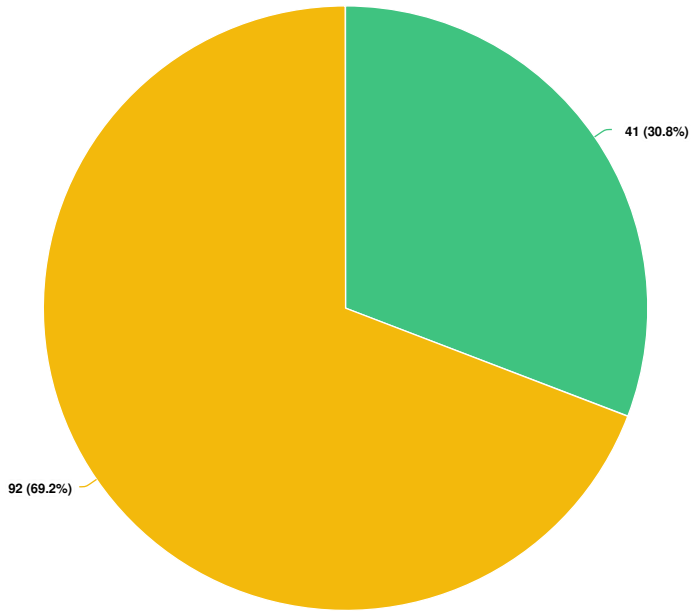

Question options

- Once a week
- Once every two weeks

Optional question (131 response(s), 53 skipped)

Q12 Would you like to see recycling pick up:

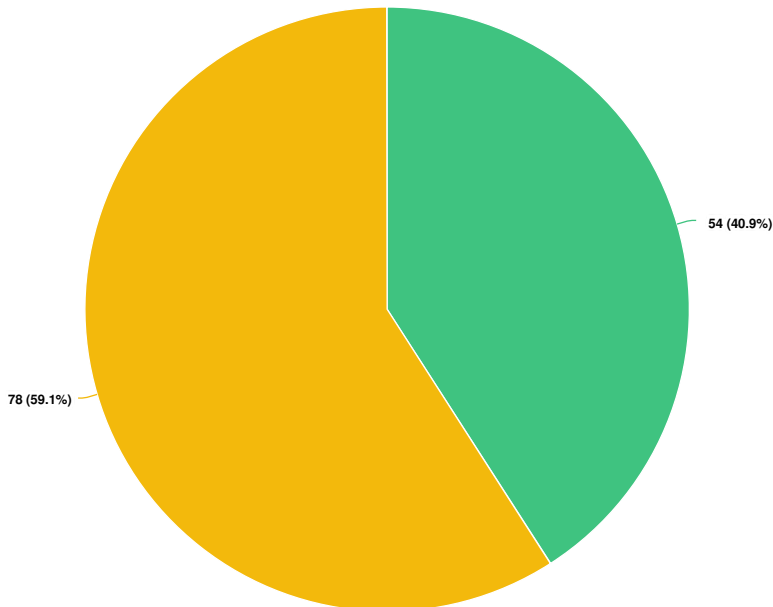

Question options

- Once a week
- Once every two weeks

Optional question (133 response(s), 51 skipped)

Q13 How many cans of garbage would you like available for pick up? (Recycling is unlimited!)

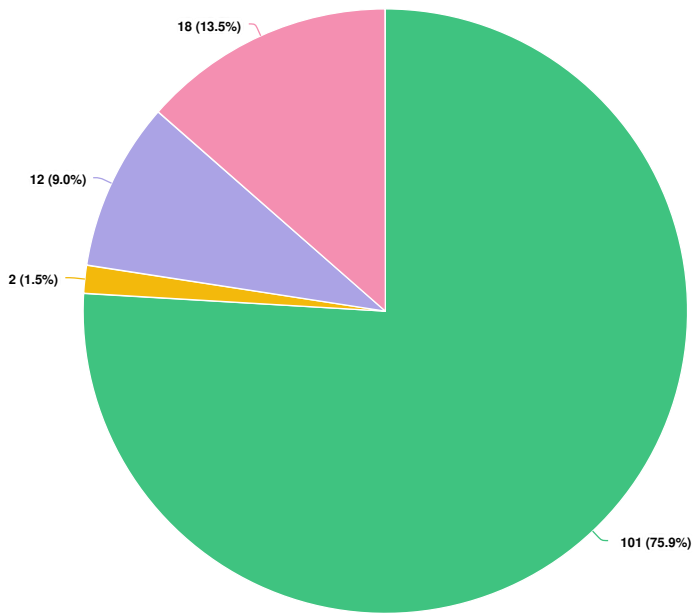

Question options

- 1 per collection
- 2 per collection

Optional question (132 response(s), 52 skipped)

Q14 Would you also like yard waste pick up?

Question options

- No
- Yes - weekly
- Yes - monthly
- Yes - seasonally

Optional question (133 response(s), 51 skipped)

Q15 Why would your neighbourhood be a good candidate for a roadside garbage and recycling pick up service?

- Anonymous
7/28/2020 03:03 PM

NOT A GOOD CANDIDATE
- Anonymous
7/28/2020 04:17 PM

Because everyone should have the option to recycle.
- Anonymous
7/28/2020 04:42 PM

Having recycling pick up would eliminate trips to town.
- Anonymous
7/28/2020 04:44 PM

Because so many people already pay for private pickup.
- Anonymous
7/28/2020 04:45 PM

It wouldn't. We already had this voted on once already. Once started you can't opt out and the costs just keep going up.
- Anonymous
7/28/2020 04:55 PM

I had difficulty arranging private curbside garbage collection. Reasonably proximate to the City if Courtenay and comprised of smaller farm parcels.

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

Anonymous 7/28/2020 05:15 PM	3 To 5 acre lots would be economically feasible; most use contracted garbage pickup.
Anonymous 7/28/2020 05:45 PM	it would save time for those who drive theirs to the dump, it would save money for those who subscribe to a private collection business
Anonymous 7/28/2020 06:28 PM	Why not?
Anonymous 7/28/2020 08:18 PM	We are very close to town and our recycling place was closed down. Many neighbours burn their recycling and I.
Anonymous 7/28/2020 08:46 PM	Too far from landfill and farmers are too busy to go to depot
Anonymous 7/28/2020 08:48 PM	I think it cuts down on people driving down to the return it centers. More pollution on the roads, plus it is a way of getting everyone to recycle and not throw things into the garbage that shouldn't belong there.
Anonymous 7/28/2020 09:00 PM	Current waste fees are expensive. Our biggest desire is recycling pick up. Needing to stock pile recyclables and drive them to town can often deter people from recycling.
Anonymous 7/28/2020 10:21 PM	Without the recycling depots, more recycling will wind up in the landfill or on the side of the road.
Anonymous 7/28/2020 10:41 PM	We have "Waste Management" and they are horribly unpredictable and expensive.
Anonymous 7/28/2020 11:52 PM	We already have city pickup. Happy with that.
Anonymous 7/29/2020 05:47 AM	Roadside recycling would help lower my carbon footprint, pretty sad the amount of driving we all do to recycle.
Anonymous 7/29/2020 08:42 AM	We all already pay for garbage pickup, I think most people outthere would be happy to pay for our recycling to be picked up as well.
Anonymous 7/29/2020 08:51 AM	Because we don't have it now
Anonymous 7/29/2020 09:46 AM	judging by the numbers of garbage cans every week I believe the service would be welcome
Anonymous 7/29/2020 10:17 AM	it would not more garbage on road
Anonymous 7/29/2020 10:49 AM	Reduce attractants from bears
Anonymous 7/29/2020 11:20 AM	Cost savings and compliance. There is a high number of dwellings on our local area (greave Cres) and it would be cost effective.
Anonymous 7/29/2020 11:23 AM	not
Anonymous 7/29/2020 01:54 PM	It would be relatively easy to collect - not far from Courtenay/Comox town centres.
Anonymous 7/29/2020 03:04 PM	Homes are not necessarily serviced by the same company or on the same day (even by the same company) resulting in increased garbage pick-up traffic. Municipal service would make more sense, and also be more cost effective for us and likely more reliable.
Anonymous 7/29/2020 03:12 PM	lots of houses along Piercy Rd and environs. At least two dif private companies. Scheduling is unpredictable. With no recycle service, I suspect folks do not pay enough attention to what goes into their garbage. It would be better for the environment!
Anonymous 7/29/2020 04:03 PM	Reduce burning. Encourage recycling. There are about 10-15 houses, not farms, on the road.

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

Anonymous 7/29/2020 04:26 PM	We're on a well traveled road.
Anonymous 7/29/2020 05:13 PM	Our old recycling depot has closed down and the next closest one is gross to go into for just cardboard or plastics
Anonymous 7/29/2020 05:17 PM	We are paying for private garbage pickup, But have always used the Country Market for recyclables .
Anonymous 7/29/2020 05:53 PM	There is no where near to easily recycle. The return it centre has long line ups and isnt convenient. I have to drive to drop off amd that is silly. Most of my neighbors dont get garbage pick up so what are they doing with it?
Anonymous 7/29/2020 11:02 PM	Far away from landfill sites
Anonymous 7/30/2020 08:09 AM	There are a lot more house in this neighborhood now. Not a single empty lot here on my street (Greaves Crescent\$
Anonymous 7/30/2020 10:01 AM	Private pickup works
Anonymous 7/30/2020 10:42 AM	Our current service doesn't always show up. Our unmanned places have been closed. I'm very concerned there will be an increase in burning.
Anonymous 7/30/2020 11:25 AM	It would be cheaper, if everyone had the service, and lots of people don't care about there garbage , and throwing it everywhere.
Anonymous 7/30/2020 01:03 PM	We currently have no other option than to go into Courtenay return it, now that the Courtenay Country market recycle is now gone. This location was very convenient and always seemed to fill up. not sure why it shut down. We pay way to much right now.
Anonymous 7/30/2020 03:32 PM	We are only 5 minutes from town! Would be more economical and save time.
Anonymous 7/30/2020 04:47 PM	not far from town, multiple homes on this road, I hope it would encourage recycling over landfill. We don't need every 2 weeks; usually put out a garbage can once every 3 weeks or less.
Anonymous 7/30/2020 07:39 PM	Because there is no nearby recycling depot and it would encourage good recycling practices in our neighbourhood.
Anonymous 7/31/2020 08:56 AM	I believe there are lots of residence who would be interested in this service.
Anonymous 7/31/2020 12:35 PM	Not presently available and we and our neighbours are presently taking our recyclable items to landfill or return it depot. We miss the recycle bins formerly off old hwy across from Sunnydale Golf Course.Can
Anonymous 7/31/2020 01:14 PM	currently two different private companies service our street. Inefficient and expensive
Anonymous 7/31/2020 06:09 PM	I think our neighbourhood needs some education on recycling--many people put out two garbage cans per week! How can you have that much garbage? If we had curbside recycling, perhaps more people would recycle.
Anonymous 7/31/2020 09:22 PM	Our neighbors recycle and compost. We would have only necessary waste to pick up. We are also getting older and the roadside pick up would help the residents of our neighborhood.
Anonymous 8/01/2020 12:05 AM	no comment
Anonymous 8/01/2020 08:38 AM	encourage recycling
Anonymous 8/01/2020 09:01 AM	Many in our neighbourhood already use a private service so the need is here.
Anonymous 8/01/2020 12:53 PM	I believe the convenience would lead to waste reduction, and would encourage more households to recycle. Limiting garbage to one can will also encourage separation of recyclables and home composting.
Anonymous	Close proximity to Courtenay, population size, and need to reduce attractants

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

8/02/2020 08:55 AM	for wildlife (stockpiled garbage)
Anonymous 8/02/2020 04:25 PM	there re a lot of families in my area and everybody seams to have different pickup dates which means more noise & traffic .
Anonymous 8/02/2020 08:19 PM	We have an increasing number of older people in the neighborhood who are unable to deal with garbage and recycling disposal on their own and private services are very expensive.
Anonymous 8/02/2020 08:53 PM	Lots of elderly folks, driveways close together, far from recycling depots, because we would be grateful as voters
Anonymous 8/03/2020 12:37 AM	There are currently no services out here and there are many aging residents. Having curbside pickup would reduce their expenses and simplify things for them.
[REDACTED] 8/03/2020 12:39 AM	At present we have a private company pick up garbage weekly. Cost \$273.00 per year. Since I no longer drive, i must arrange for a friend to drive me and my recycling to Encore. We have n
[REDACTED] 8/03/2020 12:57 AM	We subscribe to a private company for \$273.?? per year. Since I do not drive, I dependt on friends to take me and my recycling to one depo
[REDACTED] 8/03/2020 01:10 AM	We hire a private company añ n, d pay \$273.oo,
[REDACTED] 8/03/2020 01:23 AM	We all have private waste management for create.
[REDACTED] 8/03/2020 01:51 AM	Yes ... I, for one, no longer drive. I must depend on friends to drive me to the recycler. That happe8maybe once a month. Meanwhile the recycling piles This may happenonce a month th. Meanwhile the recycling adds up and gets s
Anonymous 8/03/2020 09:52 AM	Currently serviced privately (overpriced) Recycling would probably increase if curbside pickup was available
Anonymous 8/03/2020 09:52 AM	currently of the 8 home 7 are paying for private
Anonymous 8/03/2020 11:10 AM	because we need it!
Anonymous 8/03/2020 04:06 PM	we have different private companies operating on different days. seems a bit crazy
Anonymous 8/04/2020 10:11 AM	no to rural
Anonymous 8/05/2020 10:12 AM	makes sense, give more work for city workers
Anonymous 8/05/2020 11:32 AM	It would just replace a service that is adequate at this time.
Anonymous 8/06/2020 05:06 PM	I don't think it would be a good candidate as most neighbours appear to be managing very well with their current initiatives.
Anonymous 8/07/2020 11:09 AM	It would encourage people to recycle more as it is quite a chore to bring everything to the recycle depot on Puntledge Rd
Anonymous 8/07/2020 11:17 AM	Increased population and distance to landfill and recycling
Anonymous 8/07/2020 01:02 PM	if the majority of people living in the valley get it included with their property taxes, everyone should. As well, it should be done for everyone because doing all we are able to help better environment which helps everyone!!
Anonymous 8/07/2020 02:21 PM	we are close to town, but not many options available for recycling drop off
Anonymous 8/07/2020 02:29 PM	Most of the neighbourhood takes their garbage to the dump. I think about a third of us have regular pick up with a private contractor. The cost of our garbage pick up is getting more expensive so we are going to cancel and

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

	drive the garbage to the dump
Anonymous 8/07/2020 03:33 PM	We care about our environment and want to recycle, it is now very inconvenient with the closure of all the collection bins at Country market, now with covid-19 we don't want to go into a closed depot to recycle as most of us are seniors and at risk!
Anonymous 8/08/2020 07:53 PM	Good neighbours committed to do the right thing.
Anonymous 8/08/2020 10:13 PM	Please bring us roadside garbage and recycling service! Headquarters rd is straightforward and easy to manage large trucks on.
Anonymous 8/09/2020 10:40 AM	Most people on our street already have been conditioned to have their garbage at the end of the driveway for Tuesday pick ups. We all use a private service that does not offer a recycling program.
Anonymous 8/09/2020 11:01 AM	n/a
Anonymous 8/09/2020 01:24 PM	Those residing on property are getting older and it is getting harder for them to take it to the dump. Roadside pick up would be easier.
Anonymous 8/10/2020 08:35 AM	it wouldn't be!
Anonymous 8/10/2020 10:32 AM	Because I want to continue recycling and the city is taking away our big blue bin drop offs
Anonymous 8/10/2020 02:45 PM	It would be a definite benefit to have a recycling pick up and save a trip to town every second week.
Anonymous 8/10/2020 06:06 PM	less vehicles on the road to the dump, less fuel being burnt and so forth by a single pickup
Anonymous 8/10/2020 06:10 PM	less cars/trucks on the road burning fuel to the dump, less garbage being tossed in the ditches and left around
Anonymous 8/11/2020 08:29 AM	I know that quite a few residents in our neighbourhood pay private companies for roadside pick up of garbage including ourselves. The service of roadside pickup would probably cost less and would be much more convenient for recycling
Anonymous 8/11/2020 08:50 AM	many neighbours already use private collection
Anonymous 8/11/2020 11:52 AM	convenience
Anonymous 8/11/2020 02:41 PM	We already have garbage pickup but not recycling.
Anonymous 8/11/2020 03:48 PM	It is expensive to use a commercial garbage collection service, and we still have to drive to Courtenay to take recyclables.
Anonymous 8/11/2020 03:53 PM	Because it is cheaper than private collection and we still (now) have to drive in for recycling.
Anonymous 8/11/2020 07:34 PM	This area have a number of households that use an expensive private provider and no recycling available
Anonymous 8/12/2020 02:45 PM	this service would allow us to do a better job with recycling in our busy lives with work and children. On another note I go every second week to recycle and this usually takes me 4 hours of a day after travel and sorting.
Anonymous 8/13/2020 09:44 AM	we are paying taxes and live far from the dump but close to town. More efficient to send a truck out to everybody than many private trucks to the dump.
Anonymous 8/13/2020 01:31 PM	Fairly affluent neighborhood of well informed citizens
Anonymous 8/13/2020 02:55 PM	feel there are enough homes here that would appreciate this service

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

Anonymous 8/14/2020 07:54 AM	Our rural neighbourhood is a perfect candidate for encouraging people to reduce their garbage, so,we don't have to drive trucks around picking it up.
Anonymous 8/14/2020 06:32 PM	1/2 of our street (Cessford) gets it & then you turn a corner and whoops! it's Greaves and we're out of range (at least this is my understanding...) Regardless, we're a very gentrified neighborhood soooo close to Dtown Ctnay and Recycling is a Major H
Anonymous 8/14/2020 08:31 PM	Not likly
Anonymous 8/15/2020 10:50 AM	Recycling depots are very limited access and need to drive a long way to find one. Results in more items being thrown in garbage.
Anonymous 8/16/2020 06:58 AM	Because there is no where to do recycling now
Anonymous 8/16/2020 12:59 PM	need a recycle drop off closer than in town....
Anonymous 8/17/2020 11:08 AM	Because the landfill is a few KM away and if every household has to go there then that is not good for a carbon footprint, as for Recycling it is the same issue as they removed the one from the country market and most would recycle more if convenient
Anonymous 8/17/2020 12:57 PM	I am not sure about my neighbourhood in particular, but I would find it very convenient to have roadside collection. I was surprised we didn't when we purchased out here. Once every two weeks would help keep costs down, while being convenient.
Anonymous 8/17/2020 02:25 PM	We have multiple people with family's that live in our community and think it's a good idea to have roadside pickup
Anonymous 8/19/2020 09:12 AM	Close to town. Adds more work for city workers. enough people and houses
Anonymous 8/20/2020 05:39 PM	Everyone who does not take their garbage to the dump uses private services
Anonymous 8/21/2020 11:12 AM	There currently are two different private outfits that pick up in thus area which really does not make sense from an efficiamcy point of view.
Anonymous 8/22/2020 11:59 AM	I think most residents are like minded and would use the opportunity to recycle as much garbage as possible. It is in all our best interest.
Anonymous 8/23/2020 02:42 PM	Fairly densely populated area making this worthwhile.
Anonymous 8/24/2020 12:25 PM	There are a fair number of small acreage properties in the area that would make it reasonably efficient for the service to work well.
Anonymous 8/27/2020 05:37 PM	because people live here and produce garbage - there is a ton of packaging on many items purchased which should be recycled. There is an existing garbage service which most people use currently.
Anonymous 8/27/2020 06:18 PM	My neighbourhood would not. Read my answers! I resent being asked over and over until you get the answer yr looking for esp because of Bears! and costs we do not need it. Don't encourage waste in this manner! If this pass I will opt out due to safety!
Anonymous 8/28/2020 06:21 PM	We are on one long straight road, allows for easy pickup
Anonymous 8/29/2020 09:32 AM	regular service would promote more recycling; more reliable service overall
Anonymous 9/01/2020 08:27 AM	While most property owners already have private garbage pick up, few have recyclables included. The more types of recyclables accepted would increase success.
Anonymous 9/02/2020 03:55 PM	can't rely on the one we have
Anonymous 9/04/2020 03:45 PM	convenience

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

Anonymous 9/06/2020 09:50 AM	Several homes already have private pick up. Homes are relatively close together as each property is approx. 5 acres.
Anonymous 9/07/2020 09:09 PM	Most people already pay for garbage pick up; there are concerns about illegal dumping; the current recycling options are onerous
Anonymous 9/08/2020 12:53 PM	We already have garbage pickup once a week and would like to continue that IF the cost is not more than we pay now. More important is the recycling option since you have short sightedly taken away the convenient single stream bins in our area.
Anonymous 9/09/2020 02:22 PM	We have garbage
Anonymous 9/10/2020 09:02 AM	There is no other option here and no close recycling drop off any more
Anonymous 9/10/2020 02:42 PM	Convenience
Anonymous 9/10/2020 09:40 PM	Greaves Cres area has a fair density
Anonymous 9/11/2020 06:11 PM	Because most of us use private pay options and they're expensive
Anonymous 9/13/2020 11:24 AM	well populated

Optional question (126 response(s), 58 skipped)

Q16 Why might a roadside garbage/recycling pick up service NOT work in your neighbourhood? Let us know:

Anonymous 7/28/2020 03:03 PM	We recycle,use the landfill 3 or 4 times a year and burn when possible.
Anonymous 7/28/2020 04:42 PM	It should work.
Anonymous 7/28/2020 04:44 PM	Because people drive way to fast on Piercy Rd
Anonymous 7/28/2020 04:45 PM	If you happen to be away the 1 day of garbage pickup , you're then stuck with a months worth of garbage and you have to end up going to the landfill anyhow. Because you're restricted by volume, you can't back catch up.
Anonymous 7/28/2020 05:15 PM	Would have to be comparable in pricing to the existing private service
Anonymous 7/28/2020 05:45 PM	everyone would have to be bear aware
Anonymous 7/28/2020 06:28 PM	Why wouldnt it work? It currently gets picked up
Anonymous 7/28/2020 08:48 PM	no comment
Anonymous 7/28/2020 10:41 PM	I would be concerned about bears, so a slightly later pick up so ppl dont leave trash cans overnight.

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

Anonymous 7/29/2020 09:46 AM	I don't believe a roadside garbage/recycling pick up service would NOT work. Frankly I am certain that the cost of \$250.00 would be better than the private service I use now.
Anonymous 7/29/2020 10:17 AM	food source for wildlife more garbage blowing around neighbourhood .
Anonymous 7/29/2020 10:49 AM	No idea why it wouldn't work
Anonymous 7/29/2020 11:20 AM	If service offered is less than weekly than storing /freezing kitchen waste would be impractical. being a rural area wildlife such as bears, racoons, rats, mice live here as well so weekly garbage pickup is a must so no attractants are around.
Anonymous 7/29/2020 11:23 AM	Taxes for facility are already being charger do not need anymore taxes when it is cheaper to do it myself.
Anonymous 7/29/2020 01:25 PM	We have good private collection substantially less than what you advertise (it is NOT 487-550)
Anonymous 7/29/2020 01:54 PM	No reason comes comes to mind.
Anonymous 7/29/2020 03:04 PM	no reason I can think of
Anonymous 7/29/2020 03:12 PM	can't think of any reason it would not work.
Anonymous 7/29/2020 04:03 PM	Bears may be attracted to unsecured bins
Anonymous 7/29/2020 05:53 PM	No reason it shouldnt
Anonymous 7/29/2020 08:53 PM	only have one minimum cost dump run per year used to use country market before you closed it down, you don't make it easy to recycle in dove creek, cheaper to have home owner drop off in a few central locations even with tendered attendant than to drive t
Anonymous 7/29/2020 11:02 PM	None
Anonymous 7/30/2020 10:01 AM	We don't need more government
Anonymous 7/30/2020 10:42 AM	No reason it wouldn't work
Anonymous 7/30/2020 10:57 AM	I don't want to pay for something I don't need. Each Household has different amounts of waste. As someone who makes great effort to produce as little as possible, I feel, it's not worth the cost.
Anonymous 7/30/2020 11:25 AM	Some people don't care about anything but there wallet
Anonymous 7/30/2020 12:40 PM	We do our own, do not need extra cost, and collectively do land fill runs as need. Personnel I make only 3 trips to the land fill and when I go into town recycle there.
Anonymous 7/30/2020 01:49 PM	Too expensive.
Anonymous 7/30/2020 02:42 PM	Most people live on land and can dispose of their garden waste to burn later and can recycle at the nearest bottle depo.
Anonymous 7/30/2020 04:47 PM	don't know
Anonymous 7/31/2020 08:56 AM	This is a neighbourhood with racoons and bears so like our garbage pick up, residence need to be aware of the potential problems and properly manage waste by having secure facilities to store waste and only put bins out on the day of collection.

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

Anonymous 7/31/2020 12:35 PM	Can't think of any reason. Perhaps a high price might defer some.
Anonymous 7/31/2020 01:14 PM	depends on cost and frequency
Anonymous 7/31/2020 06:09 PM	As long as the cost is cheaper than what people are paying now I can't see why it wouldn't work.
Anonymous 7/31/2020 09:22 PM	If the cost is higher than the \$250 yearly, it may be cost effective to go directly to the dump.
Anonymous 8/01/2020 12:05 AM	no comment
Anonymous 8/01/2020 08:38 AM	rural area with homes far apart
Anonymous 8/01/2020 09:01 AM	Municipal service may be too expensive or inflexible compared to private service.
Anonymous 8/01/2020 12:53 PM	If the cost is too high, or if residents do not properly secure items for pickup, I can see blowing garbage being an issue.
Anonymous 8/01/2020 05:02 PM	attract animals etc
Anonymous 8/02/2020 08:55 AM	Elderly residents who have a greater quantity of garbage and recycle less. The general consensus among my neighbours is that we receive few services in exchange for our high level of property tax, and many may not welcome any increase
Anonymous 8/02/2020 04:25 PM	N/A
Anonymous 8/02/2020 08:53 PM	I can't see any reason, garbage is already picked up by private companies with high rates of cost to residents
Anonymous 8/03/2020 12:37 AM	I don't see any reason why it would not work.
Anonymous 8/03/2020 09:52 AM	Low housing density. Cost
Anonymous 8/03/2020 11:10 AM	n/a
Anonymous 8/03/2020 08:01 PM	would have to put it in truck to take it to pick up point; may as well proceed to disposal site
Anonymous 8/04/2020 10:11 AM	to rural
Anonymous 8/05/2020 11:32 AM	2 can is too restrictive. We use 2 cans 75% of the time-- but we do need occasional 3 cans
Anonymous 8/06/2020 05:06 PM	It would encourage people to be more wasteful as it would be too easy to just put it out for pick up!
Anonymous 8/07/2020 01:02 PM	How could it not work... it will entice people who don't currently recycle to start if it is easy and the cheaper the better...
Anonymous 8/07/2020 03:33 PM	It would work beautifully!!
Anonymous 8/08/2020 10:46 AM	There is already a private curbside pickup available in our area if people want it. We use the landfill and take our garbage there ourselves. It works for us.
Anonymous 8/08/2020 07:53 PM	?not enough houses on the road to make it worthwhile?

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

Anonymous 8/09/2020 10:40 AM	IT WOULD!
Anonymous 8/09/2020 11:01 AM	cost is too expensive
Anonymous 8/09/2020 01:24 PM	Property is at the extreme southwest end of Bridges Rd. It may be difficult for a truck to collect there. This may require those residing on the property to place garbage at Headquarters Rd and Bridges Rd intersection.
Anonymous 8/10/2020 08:35 AM	not enough to be cost effective..and that is just common sense!
Anonymous 8/10/2020 06:10 PM	people dislike additional taxes and weight the cost of travel and dumping fees
Anonymous 8/11/2020 08:29 AM	I don't see any reason why the garbage/recycling pick up service would not work in our neighbourhood
Anonymous 8/11/2020 03:53 PM	I think it depends on the number of people who are currently putting out at least a can a week. Also if people are driving for recycling, this add on service might tip the scales for community pick-up. ht make it
Anonymous 8/11/2020 07:34 PM	There is no reason why it would not work.
Anonymous 8/12/2020 02:45 PM	I have no reason why it woud not work.
Anonymous 8/13/2020 01:31 PM	No reason
Anonymous 8/14/2020 07:54 AM	We don't need even more government "services" driving trucks around, up and down our rurally distant roads. Who started this initiative? Has anyone asked for garbage pick it? Aren't their enough other problems that we don't need to put staff time into thi
Anonymous 8/15/2020 10:50 AM	Is Recycling really helping the environment or is it all being diverted into the landfill anyway? Are the recycled items being used in local or regional recycle industry? I think the Recycle collection industry has a very limited impact on our local area.
Anonymous 8/16/2020 06:58 AM	It would work
Anonymous 8/16/2020 12:59 PM	cost too high
Anonymous 8/16/2020 03:04 PM	Currently very satisfied with our current private waste company. They pick up weekly and their service is very reliable.
Anonymous 8/17/2020 04:30 PM	Living in a farming community; many require bins and this service would not work.
Anonymous 8/20/2020 03:50 PM	Most neighbours are independent and happy with their current management and would be opposed to additional costs.
Anonymous 8/20/2020 03:54 PM	Most neighbours are independent and are happy with their current management and would be opposed to additional costs.
Anonymous 8/20/2020 05:39 PM	Some are committed to supporting the private companies, especially Recycling
Anonymous 8/21/2020 11:12 AM	depends on the limits of the number/ size of garbage cans allowed. That is why I currently take garbage to the land fill myself. Also, should this be implemented, will we have the choice to take part or not.
Anonymous 8/22/2020 06:37 AM	I have to take my returnable bottles/cans, soft plastics and glass to the return centre anyway. I do my own compost and therefore I only produce about 1 small bag of garbage once a month or less.
Anonymous 8/24/2020 12:25 PM	Don't know. I think it would work.
Anonymous	concerns with wildlife getting into garbage/compost bins and making a mess.

ELECTORAL AREA C: Rural Roadside Garbage and Recycling Collection Service : Survey Report for 27 July 2020 to 14 September 2020

8/24/2020 01:05 PM	Weather plays a large factor in collection (we live on a gravel road and garbage companies often refuse to pick up in inclement weather siting icy road conditions.
Anonymous 8/27/2020 06:18 PM	Our road is too fast and has blind hills and corners it is dangerous, to merely pull into or out of the driveway. My main concern is that bears, habituated to garbage on all rural roads will be shot or hit! .
Anonymous 8/29/2020 09:32 AM	some people may not want the additional costs in taxes
Anonymous 8/31/2020 02:18 PM	We manage to recycle most things by taking them in a big load to the Return-it Depot a few times a year.
Anonymous 8/31/2020 02:32 PM	All our food scraps go to our domestic and farm animals. Out Garbage waste is minimal and we make 2 trips a year to the Landfill when convenient. Cost is around \$35/year. We take our recyclables to the Return-it Depot about once a month when convenient.
Anonymous 9/01/2020 08:27 AM	Many properties have multi-generational households, rental accommodations and/or business services that affect the amount of garbage/recyclables generated. Frequency of pick up, types and amounts allowed will greatly affect success.
Anonymous 9/01/2020 11:05 AM	Being rural we are 350' from the roadway, leaving garbage unattended can result in garbage being scattered by animals as well as picking up you empty cans rolling down the roadway. As well as having to make regular trips to the landfill anyway.
Anonymous 9/07/2020 09:09 PM	Tax increase (I'm willing, not sure other residents will be)
Anonymous 9/08/2020 12:53 PM	If it is too expensive or garbage pickup is only once every 2 weeks. Holding garbage for 2 weeks encourages wild animal scavenging (rats, bears etc)
Anonymous 9/09/2020 02:22 PM	Perhaps the pickups are spaced too far apart?
Anonymous 9/10/2020 09:02 AM	Can't see why it wouldn't work!
Anonymous 9/10/2020 02:42 PM	Close to recycling depot
Anonymous 9/10/2020 09:35 PM	The houses may be too far apart, also maybe not enough people would use this service.
Anonymous 9/13/2020 11:24 AM	Non, other than significant price increases

Optional question (90 response(s), 94 skipped)
