

Greenwood Trunk Project Construction

News Bulletin #3
December 2018

Greenwood Trunk forcemain construction complete

The Greenwood Trunk sanitary sewer collection line, under construction from Military Row to Anderton Road, is now complete – and right on time.

Since end of summer, crews have been working through several steps to finish the project, including:

- pipe installation
- final manhold installation
- final cleanup, paving/demobilization

Construction on the project started in June on Snowberry Road, near the 19 Wing Community Centre, and proceeded onto Oceanspray Road, Baillie Road and a short section of Ryan Road. Work then moved towards the eastern boundary of the City of Courtenay (at Anderton Road, between Hamilton and Greenwood Crescent), and ended with crews looping back to finish work on Military Row.

The new sewer line will help service an area of growth, by tying these neighbourhoods in East Courtenay directly to the Comox Valley Regional District's sewage treatment plant on Brent Road. The addition of this line will also relieve pressure on the current system, by directing flows away from the Courtenay Pump Station.

With work now complete, we'd like to thank everyone affected for their continued patience over the last six months. With the community's support, this project was finished on-time and on-budget. Making these updates to the system has prepared us for the future and for ongoing residential growth in our region.

Crews lay a portion of sewer pipe for the new forcemain

Right-of-way at DND sports Field and Oceanspray Rd.

Final Steps

Residents in the area may notice some finishing pieces of work underway, including:

- Hydroseeding
- Final clean-up of roadways
- Return of park area (used as a laydown area) to previous conditions
- Tree replanting at 19 Wing sports field
- Demobilization of equipment

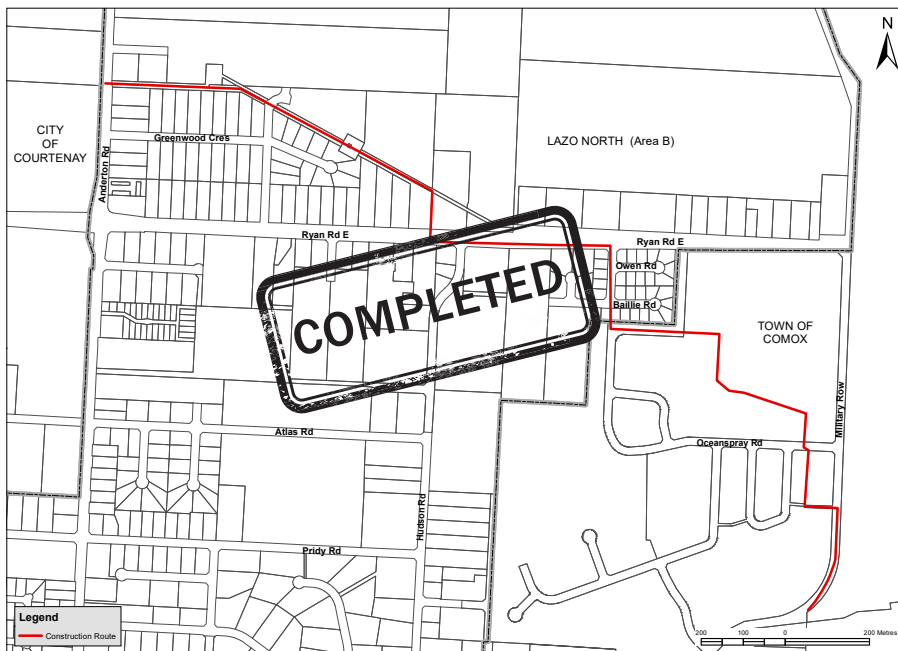

Numbers at a Glance

2,750m	Total length of pipe line	23	Number of weeks to substantial completion
\$3.5M	Project construction value	29 + 2	Regular concrete + fiberglass flow metering manholes

Route Map

The map below shows the route of construction for the completed work.

Newly paved road at Hardhack St. & Roas Ave.

Let's stay in touch!

This will be our final Greenwood Trunk project update newsletter to residents – thank you to all.

Did you know that the Comox Valley Regional District is starting a liquid waste management planning process that will determine a long-term plan for the sewer service in Courtenay and Comox? To find out more or weigh in with your opinions, visit: connectcvrld.ca/lwmp.
