			Type 1  Gally	llons	
Date of Insta	llation:	Type 2 🗖	Litres		
Type of Service (pump out, maintenance, inspection)	Date of Service	Name of Service Provider	Results/Findings		
	py of your septic rece				
Service Provi	der(s) Name and Co	ntact Information:			

## Do's

**DO** locate and maintain easy access to the components of your septic system.

**DO** develop and follow a maintenance plan and keep up-to-date maintenance records.

**DO** be careful with what goes down the drain.

DO reduce your water consumption.

**DO** get your septic tank pumped out every 2 to 5 years.

**DO** protect your drainfield and divert surface water away from the area.

## Don'ts

**DON'T** park, drive, pave or put heavy objects on the drainfield.

**DON'T** plant trees or shrubs in the drainfield.

**DON'T** use cleaners or chemicals that can kill the good bacteria in the septic tank.

**DON'T** overload the system by running too many high-water use appliances at the same time.
